APPLICATION

What is the IFCO?

The International Federation of Chiropractors and Organizations is an international organization representing chiropractors and chiropractic affiliate organizations with a united voice for chiropractic principles.

Chiropractic Definition

IFCO maintains that Chiropractic is a vitalistic philosophy, science, and art which consists solely of the non-therapeutic objective of locating, analyzing and correcting vertebral subluxations because they are detrimental to the expression of innate intelligence.

IFCO Mission Statement

IFCO's mission is to protect, promote, and advance chiropractic as a separate and distinct profession dedicated to the detection and correction of vertebral subluxation for the better expression of life.

IFCO Strategy

- Ensuring access to vertebral subluxation correction for all people during all stages of life regardless of the presence or absence of symptoms.
- Uniting and supporting chiropractors and organizations who share the IFCO's mission.
- Engaging in professional, legislative, and educational endeavors which support the IFCO's mission.

IFCO Vision

Throughout all stages of life every man, woman, and child will have the opportunity to be checked regularly for vertebral subluxation and adjusted when necessary.

IFCO Member Benefits

Seminars - the place to learn how the philosophy, art, and science of chiropractic can propel you into a successful practice and life.

Audio, Video, Patient Education & Texts - Some of the greatest communicators and writers in chiropractic have made their materials available to IFCO members at discounted prices.

Referral Directory and Web Site Listing – Ruling members may authorize posting on the IFCO's on-line referral web site.

Mentoring Program - Personal contact with successful like-minded chiropractors who can help you reach your chiropractic goals.

Communication - Through regular emails and our on-line publications, including the *IFCO UPDATE*, we keep you informed on important issues affecting chiropractic both nationally and internationally.

To the Applicant

I hereby apply to become a Ruling Member/Friend in the International Federation of Chiropractors and Organizations (IFCO) with the understanding that the organization's mission is to protect and promote a non-therapeutic approach to practice that is exclusive for the location, analysis, and correction of vertebral subluxation because it is a detriment to the fullest expression of innate intelligence.

I understand that this approach necessitates the education of the public to my unique objective.

In signing this I am attesting to the fact that I am in agreement with this approach to chiropractic.

I hereby apply to become a Ruling Member/Friend in the International Federation of Chiropractors and Organizations (IFCO) and agree to read and abide by its Constitution and By-laws, and any/all amendments hereafter legally adopted. I also agree to uphold the mission and principles of the IFCO. I also understand and agree that failure to remit dues will result in loss of Membership and all rights and privileges thereof.
